Whatever your translation needs are, VEQTA Translations is a choice you can depend on. We’re able to offer our clients stability and consistency for their long-term projects. With locations in Kuala Lumpur, Singapore and Bangkok we have the strategic benefit of operating in a low cost environment and can thus provide a high quality translation at very competitive prices.

Our team is made up of no-nonsense, top-notch professionals that are here to make international business, and our clients’ life, easier.

We are great at the core of our business – translation and localization! We adapt our clients’ business, technical, marketing and legal communications to new languages. This helps them sell their products and perform their services more efficiently around the world. From technical translation to marketing collateral to graphics, we are well equipped to localize your documents.

We consistently translate contents related to specific industries such as hospitality, I.T, manufacturing, software, tourism, and retail. We provide a full suite of services such as document translation, website localization, eLearning, software localization and voiceover.

Our certified translators are highly qualified specialists with professional backgrounds. All translators hold formal academic qualifications at Bachelor level or above and have at least 10 years experience in the translation field in addition to experience in their professional field.

Subject Matter Experts (SME) from all major industries provide valuable feedback on every translated document. Experienced Project Managers ensure translators observe to style guides and utilize best Terminology Management tools such as termbases and industry references. They ensure best translation industry practises are observed such as using so called ‘CAT Tools’ and ‘Translation Memories’ which enables us to store translated words into a database for consistency and terminology management.

Our Quality (QA) Department carry out quality checks such as observance of reference material and checking the consistency of the translation.
Thank You to Our Clients!

11 Million Words Translated for the World’s Leading Brands

Multimedia & Voice Overs

VEQTA Translations provide turn-key solutions for projects containing video and audio content for a comprehensive range of languages and media types. We have comprehensive multimedia production capabilities to create multilingual versions of e-Learning modules, interactive components, training materials, games, or virtually any combination of content, audio, and visual elements.

We have recorded and directed dubbing and voiceover recording productions for audiobooks, corporate presentations, airline safety systems, commercials and radio shows.

Studio Voice Over Recordings

Professional studio voice-over recording using native speaking talent “United Nations style” voice overlay, lip synching, on-screen voice-over or dialogue replacement, script translation and pronunciation guides.

Part of our process entails offering you samples of gender and style-specific voices, ensuring we combine the best overall voice-over talent to fit for your multilingual needs.

Recording using state-of-the-art technology our experienced professionals will exceed your expectations!
